7.13. Environmental Utilities Fiscal Year 2020-21 Year-End Interfund Transfers - Budget Adjustment

Memo from Environmental Utilities Business Analyst Teri Quinlan and Environmental Utilities Director Richard Plecker recommending the City Council adopt ORDINANCE NO. 6370 OF THE COUNCIL OF THE CITY OF ROSEVILLE AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2020-21 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve a budget adjustment to transfer water, wastewater, and waste services resources among the funds of each utility prior to the end of FY2020-21. Transfers from each utility's operating fund to its rate stabilization and rehabilitation funds are recommended due to several years' worth of increasing fund balances including FY2019-20 and FY2020-21 water revenues. This budget adjustment transfers out amounts equal to the transfers in within each utility. Thus, there is a net zero effect within each utility. The total of all transfers out for all three utilities is \$39,176,614, which matches the total of resources transferred in. Rate stabilization funds will be used for rate mitigation in FY2021-22 and FY2022-23 and rehabilitation funds will be used for future projects. In addition, this budget adjustment includes a one-time transfer to move the accumulated local connection fees balance of \$6,876,614 from the Wastewater Rehabilitation Fund to the Wastewater Construction Fund. This budget adjustment has no fiscal impact on the General Fund.

10. PUBLIC HEARING

10.1. Community Facilities Districts - Adoption of Updated Schedule of Maintenance Costs and Charges for Maintenance Community Facilities Districts

Memo from Management Analyst Jeannine Thrash and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt RESOLUTION NO. 21-248 ADOPTING A SCHEDULE OF MAINTENANCE COSTS AND CHARGES FOR COMMUNITY FACILITIES DISTRICTS. The Schedule of Maintenance Costs and Charges for Maintenance Community Facilities Districts (CFDs) identifies costs for services provided by the City at the request of, or on behalf of, individual districts, as opposed to the public at large, and is reviewed annually. The Schedule of Maintenance Costs and Charges for Maintenance CFDs is intended to target full cost recovery in a fair and reasonable manner for all future maintenance CFDs, and annexations into existing maintenance CFDs, once implemented.. The proposed schedule of costs and charges, effective July 1, 2021 through June 30, 2022, is based on the results of a study completed in Fiscal Year 2020-21. The report is included as an attachment to this City Council communication. The fees currently in place are sufficient to recover approximately 96% of the City's service district

maintenance costs. The adjusted fees are intended to recover 100% of the maintenance costs. Implementation of this schedule of costs and charges is subject to formation of new districts, or annexations into existing districts, to which the schedule would apply; therefore, no fiscal impact is estimated at this time.
