NOTICE TO ABATE FIRE HAZARD

This letter is intended for parcels that are undeveloped. If the property has been developed or sold, please disregard the following and complete the information on the following page(s) and return it to the Roseville Fire Department, 316 Vernon Street, Suite 480, Roseville, CA 95678.

This letter is to notify you that a fire hazard may exist on the undeveloped parcel(s) listed on the following page(s). The law requires that all cut or uncut weeds, grass, vines, vegetation, or other combustible materials be removed when determined to be a fire hazard. Roseville Fire Code (RFC) 304.1.3; H&S Code, Division 12, Part 5.

*If applicable, all necessary work shall be completed no later than **July __, 2020**. If the property owner does not comply with this notice, the required firebreaks will be made by the City of Roseville. All costs incurred by the City, including a **\$308.00** per parcel administration fee, shall be billed directly to the property owner.*

WEED ABATEMENT GUIDELINES

A clear firebreak of a minimum 30-foot width shall be created and maintained in all areas designated by the City of Roseville. Clear firebreaks shall be provided around all combustible buildings, fences, vehicles, structures, or storage on this parcel or on adjacent properties. We ask that you adhere to the following abatement requirements:

1. *The preferred method of weed abatement shall be accomplished by discing and completed so that all weeds, grass, other vegetation or organic material which can be expected to burn are completely removed or turned under so there is insufficient fuel to sustain or allow the spread of fire.*
 - *Discing does not negate the requirement for weed removal up to the structure.*
2. *Where discing is not practical, mowing is permitted where the material is mulched and the remaining weeds do not exceed two inches in height.*
3. *Spark arrestors shall be installed on all outdoor equipment with internal combustion engines.*
4. *Parcels that are one acre or less shall be completely abated.*

Prior to abating weeds, seasonal rains should be considered. Late rains will produce late growing weeds. Weeds once mowed, may require additional mowing. The weed abatement program's intent is to reduce the fire hazard during fire season.

***Our Mission...** Protect and enhance the safety and well being of residents, businesses, customers and partners
We will accomplish this by... Delivering exceptional service and compassionate solutions as a cohesive team with
dedication, pride and vigilance.*
